Fullstack Developer

PT Smart Multifinance is multifinance company that provides financing services for various needs, such as vehicles, business capital, and daily necessities

- https://github.com/Dhielmeoww
- Developed an internal application to support the procurement process, covering request input, approval workflows, and procurement status monitoring.
- Built a Golang- based service integrating non- SNAP Virtual Account (VA) payments with DOKU, enabling automated and seamless payment transactions.
- Designed and implemented a document management application for multiple departments to store, organize, and control document access efficiently.
- Created debtor profiling models using various machine learning methods, including XGBoost (XGB), to support risk analysis and credit decision-making.
- Developed structured and dynamic reports/documents using RDLC with .NET (Visual Studio) to streamline reporting and documentation processes.

Pengalaman Organisasi

Bale Wilasa, Universitas Padjadjaran - **Sumedang, Indonesia** Aug 2019 - Apr 2020

Mentor

- Guided and assisted new Bidikmisi students at Universitas Padjadjaran (Kabim) who were newly residing in the dormitory to help them adjust to the academic environment. Held responsibility for maintaining and overseeing the internal conditions of the dormitory environment.

Himpunan Fisika Unpad (HIFI) - **Sumedang, Indonesia** Dec 2019 - Dec 2020

Head of BSO Physics English Conversation Club (PECC)

- Developed and implemented work programs as tangible efforts to facilitate and support physics students in meeting their English language needs, both in academic settings and for study abroad opportunities. Led training activities for TOEFL preparation. Collaborated with TOEFL service provider Neo Spectra for training and the administration of TOEFL tests.
